

PRODUCT:

FIRE ANT & INSECT KILLER

FIRE ANT & INSECT KILLER

4480

4483

4484

4490

THE BASICS:

- This multi-use granular insecticide is ideal for long-lasting control of fire ants and other insects in and around telecom and utility equipment. FIRE ANT & INSECT KILLER provides years of control in and around equipment such as pedestals, cross-connect boxes, CATV boxes, buried cable, pad-mounted electric transformers, substations, and underground vaults.
- FIRE ANT & INSECT KILLER is non-conductive and non-corrosive, making it safe for equipment and personnel. The new patented formula contains a waterproofing agent to prevent caking which keeps areas inside treated equipment “free breathing” or from retaining moisture.
- The 4 oz single application bag treats a 12” x 12” area. These premeasured bags are odor-proof, waterproof, burst-proof, and easy to use. The 2.1 and 6 lb shaker containers with adjustable dispenser lids are an ideal choice for pretreating construction sites for pad-mounted equipment.

APPLICATIONS:

Use FIRE ANT & INSECT KILLER for long-lasting control of:

- Ants
- Black widow spiders
- Brown recluse spiders
- Crickets
- Fire ants
- Fleas
- Millipedes
- Roaches
- Scorpions
- Silverfish
- Sowbugs
- Ticks
- Waterbugs
- Soil infesting insects

FEATURES	HOW YOU BENEFIT
Very high level of active ingredients	Provides long-lasting results for many years depending on application
Protects equipment and personnel from insect damage and injury	Reduces maintenance time, expenses, and personal injuries
Non-corrosive and non-conductive	SAFE for equipment and personnel
Packaged in single application containers	Convenient and easy to use with no mixing or measuring
Available in 2.1 and 6 lb shaker container with adjustable dispenser lid	Ideal choice for pretreating pad-mounted equipment and for broadcast applications of large areas
