This product is easy-to-use! Just place one or two UNopened 4 oz bags of MICE & RAT BAIT in the infested area and the rodents will do the rest.

MICE & RAT BAIT is fish flavored to make it appealing to rodents. It is a multiple-feeding product that rodents will return to eat several times. They gnaw the package open, eat the bait and even carry nuggets back to their nests to feed other rodents.

The unique formulation of MICE & RAT BAIT does not cause a secondary poisoning effect, should wildlife or a domestic animal eat a dead rodent.

Because deer mice are known to carry Hantavirus, using MICE & RAT BAIT reduces the likelihood of utility workers coming in contact with this deadly disease. Rodents are also a food source for snakes. Eliminating rodents lowers the possibility of snakes in equipment enclosures.

Use MICE & RAT BAIT indoors or outdoors to control rodents in and around:

- Buried Cable
- Cross-Connect Boxes
- Offices
- Pedestals
- Switchgear
- Substations
- Pad Mount Equipment
- Warehouses
- Work Stations
