Baygon®, the active ingredient, has repellency properties to help keep insects away from equipment.

This time-release product is designed to slowly release insecticide for years inside telecommunications and utility equipment - even when sensitive electronics need to be protected. This unique product KILLS existing infestation and PREVENTS future infestation.

Baygon®, the active ingredient, has repellency properties to help keep insects away from equipment.

Using a cable tie, attach the 1 3/4” x 2 7/8” INSECT TAG at or around entry points where insects will be killed or repelled as they attempt to enter equipment.

Apply INSECT TAG inside aerial closures and terminals, pole-mounted equipment, customer premise equipment, cable closures, terminal boxes, telecommunications, power and utilities, electronics, street lighting, computers, railroad systems, municipalities, security and smoke alarms, traffic control systems, network interface devices, meter boxes surge protectors, various OEM equipment, and outdoor equipment or contained areas. One application repels and kills insects around the clock.

APPLICATIONS:

Use INSECT TAG to prevent nesting, repel and to kill these insects:

- Ants
- Bees
- Fire Ants
- Hornets
- Roaches
- Spiders
- Wasps
- Waterbugs
- Yellow Jackets

FEATURES

<table>
<thead>
<tr>
<th>Time-release system</th>
<th>Controls and kills insects in telecom and utility equipment and other areas indoors and outdoors. Prevents infestation.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Protects equipment and personnel</td>
<td>Reduced maintenance. Prevents service interruptions and injury to personnel caused by stinging and biting insects.</td>
</tr>
<tr>
<td>Non-corrosive and non-conductive</td>
<td>Easy to apply to aerial and pole-mounted equipment closures and surfaces and sensitive electronic equipment.</td>
</tr>
<tr>
<td>Long-lasting insecticide</td>
<td>Provides continuous control for up to three years.</td>
</tr>
