

PRODUCT:

POLE QWIKSET

POLE QWIKSET
40590

THE BASICS:

- POLE QWIKSET is packaged in a 50 lb. pail producing 2/3rds of a cubic foot of non-expanding concrete material. Displacing water from the hole.
- POLE QWIKSET is specially formulated for straightening and setting power utility poles when water is present in the hole.
- POLE QWIKSET can also be used to patch cracks and holes to stop water from running into concrete structures such as; manholes, vaults, concrete pipes and conduit.
- POLE QWIKSET has a high compression strength of 5000 PSI and creates a solid foundation for all types of utility poles, light poles, fence posts, etc.
- POLE QWIKSET sets up in 5 to 10 minutes and hardware can be mounted within 15 minutes.

APPLICATIONS:

Use POLE QWIKSET when water is present in hole to set:

- New poles - transmission and distribution
- Leaning poles
- Decorative street light poles
- Security light poles
- Gate and fence posts
- Highway DOT sign posts

POLE QWIKSET
Product # 40590

Water is present in the hole

Pour in enough POLE QWIKSET as needed

POLE QWIKSET sets up in 5 to 10 minutes

FEATURES	HOW YOU BENEFIT
No mix formula	Pour in standing water and mixing occurs on contact with water
Fast setup so hardware can be mounted	Pole hardware can be mounted in 15 minutes
Very high compression strength	Begins hardening as fast as 5 to 10 minutes. Creating 5000 psi strength
Replaces traditional backfill	Saves time = Saving money

RAINBOW

TECHNICAL HIGHLIGHTS:

Compressive strength was tested per ASTM C-109 and yielded the following results:

3 day break 3462 psi
7 day break 4025 psi
28 day break 5000 psi

Note: compressive strength values and set times will vary according to soil type, temperature, moisture content, and other environmental conditions.

Application Chart

Hole Diameter (in)	Pole Diameter (in)	Buckets/Ft of Water
18	10	3.1
20	10	4.1
22	10	5.3
24	10	6.5
18	12	2.5
20	12	3.5
22	12	4.75
24	12	6
18	14	1.8
20	14	2.8
22	14	4
24	14	5.25
