POWERSOLV was developed to meet utility standards and tested by NEETRAC to the proposed IEEE standard for cleaning solvents. POWERSOLV removes contaminants and anti-oxidation compounds from semi-conducting shields, EPDM, silicone rubber, splice, and termination materials.

POWERSOLV also removes carbon, grease, oil, and other contaminants from almost any surface including electrical motors, contacts, switch gears, primary cable transformers, and machinery. It’s compatible with all polyethylene and EPR cable insulations, semi-conducting shields, EPDM, silicone rubber, splice, and termination materials.

This product is non-corrosive and may be used on rubber, metals, and plastic. It dries quickly and completely with NO residue. Use this versatile cleaner as a wipe on/wipe off, in parts washers or in tanks for immersion cleaning.

POWERSOLV was designed as an alternative to chlorinated solvents. POWERSOLV contains NO chlorinated solvents, CFCs, HCFCs, or other ozone-depleting compounds.

POWERSOLV is safe for nearly any surface. Use it to clean:

- Connectors
- Contacts
- Electrical cables
- Fiberglass
- Insulators
- Live line tools
- Machinery
- Motors
- Parts washer
- Primary cable
- Switch gears
- Transformers
- Utility work tools

**FEATURES**

<table>
<thead>
<tr>
<th>Feature</th>
<th>How You Benefit</th>
</tr>
</thead>
<tbody>
<tr>
<td>High flash point (142°F)</td>
<td>Employee safety</td>
</tr>
<tr>
<td>Fast and effective cleaning action</td>
<td>Quickly removes carbon, oil, grease, and other contaminants</td>
</tr>
<tr>
<td>Evaporates completely leaving NO residue</td>
<td>Will NOT cause current leakage or tracking while protection employee and equipment</td>
</tr>
<tr>
<td>Compatible with insulation shield, EPDM, and silicone rubber materials</td>
<td>NO degradation to cable and equipment</td>
</tr>
<tr>
<td>High dielectric strength (34,000 volts)</td>
<td>Employee safety</td>
</tr>
<tr>
<td>NO terpenes, d’limonene, or citrus-based solvents</td>
<td>Minimizes irritation problems in sensitive individuals</td>
</tr>
</tbody>
</table>
POWERSOLV was tested by National Electric Energy Testing, Research and Applications Center (NEETRAC) against proposed IEEE standards for Alternative Electric Cable Solvents. POWERSOLV met all criteria. Refer to NEETRAC test results for compatibility of rubber goods. Test results are available upon request. The tests included:

- Dielectric Strength Residue
- Flash Point (PMCC ASTM D-93)
- Percent Nonvolatile Residue (ASTM D-4 902)
- Solubility in water
- Cleaning effectiveness
- Tensile Strength XLPE Insulation (ASTM D-638)
- Volume Restivity of Cable Insulation Shield (ICEA S-66-524)
- Tensile Strength of EPDM and Silicone Rubber (ASTM D-412)
- Resistance of Elbow Terminator Housing

Rainbow Technology offers a comprehensive line of products to the utility and telecommunications industries. Users of POWERSOLV often find these other Rainbow products helpful too.

- Clean & Lube (4410)
- KNUCKLES Hand & Tool Cleaning Towels (79315, 79316)
- Multi-Purpose Lubricant (4403)
- Multi-Purpose Terminal Brush (4494)
- Silicone Spray (85000)
- CP Wipes (4215)

This product is only for sale to and use by service personnel. MSDS available on request.
