GEL OFF® PLUS

GEL OFF. PLUS
42171

GEL OFF® PLUS quickly and safely removes filling and flooding compounds, gels, greases, c-cement, lubricants, water-blocking compounds, and other petroleum-based contaminants from telecommunication cables, splices, and utility work tools. This formula is tested by BELLCORE/TELCORDIA and is proven NOT to harm PIC cable.

42133
42130
42132
4217

Once the PIC cable is cleaned, a patented preservative coating will remain as a protectant to prevent PIC degradation and enhance the life of the cable. Please expect an oily coating to remain.
