CLEAN & LUBE is a multiple-use product with many applications. It is a non-flammable silicone spray and cleaner all in one.

CLEAN & LUBE effectively removes rubber bloom oxidation, carbon, light greases, dirt, and light contaminants from plastics, metals, and rubber goods.

This heavy-duty silicone provides superior penetration and lubrication for metals, plastics, and rubber while protecting against oxidation and corrosion caused by moisture and UV rays.

This unique, non-flammable formula with a high dielectric strength is an excellent choice where flammability and medium to high voltage is a concern.

CLEAN & LUBE will effectively clean while providing lubrication and protection at the same time to a wide range of equipment, including:

- Breaker operating mechanisms
- Bushings
- Cable jackets
- Coin mechanisms
- Interfaces
- Line hoses
- Line tools
- Mold release
- Payphones
- Power cable accessories
- Power cable terminations
- Rubber elbows
- Rubber splices
- Switch linkage
