continued SECTION 4 - FIRST AID MEASURES

IF SWALLOWED:	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have a person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
NOTES TO PHYSICIAN:	There is no specific antidote for exposure to this material. Treatment of overexposure should be directed at the control of symptoms and the clinical condition.
MEDICAL CONDITION AGGRAVATED BY OVEREXPOSURE:	This product contains crystalline silica, which is classified by IARC (Group 1) as carcinogenic to humans when inhaled. Inhalation of silica can cause a chronic lung disorder, silicosis.

SECTION 5 - FIRE FIGHTING MEASURES

FIRE EXTINGUISHING MEDIA:	This material will not burn or burns with difficulty. Use an extinguishing agent suitable for surrounding fires.
FIRE CONTROL TACTICS:	<p>Wear self-contained, positive pressure breathing apparatus and full fire fighting protective clothing. Keep unnecessary people away. Use as little water as possible. Dike area of fire to prevent pesticide run-off. Use spray or fog - solid stream may cause spreading.</p> <p>Do not decontaminate personnel or equipment, or handle broken packages or containers without protective equipment as specified in the Exposure Control Section. Decontaminate emergency personnel with soap and water before leaving the fire area.</p> <p>Avoid breathing dusts, vapors and fumes from burning materials. Control run-off water - if water enters a drainage system, advise the authorities downstream.</p>

SECTION 6 - ACCIDENTAL RELEASE MEASURES

SPILL OR LEAK PROCEDURES:

Wearing appropriate protective clothing and equipment (see "Exposure Control" section 8) shovel/sweep spilled material into covered containers for proper disposal (see "Waste Disposal" section), or reuse if possible. Rinse spill area and tools several times with soapy water. Contain and absorb rinsate with inert absorbents (e.g. granular clay or sawdust), and place into the same disposal container as spilled material.

Depending on the quantity released to the environment, notifications to regulatory authorities may be required (see "Additional Regulatory Information" section). If spill is to a water body, immediately notify applicable authorities downstream, so that contingencies can be taken, if necessary.

SECTION 7 - HANDLING AND STORAGE

DO NOT contaminate water, food or feed by storage or disposal. Store in original container only in a secure, dry, well-ventilated separate area; away from children, livestock and food products, other pesticides and fertilizer.

Do not store below 10°C.

Not for use or storage in or around the home.

Keep away from sources of ignition and protect from exposure to fire and heat.

Segregate from oxidizers and incompatible materials listed in the Reactivity Data Section. (SECTION 10 - STABILITY AND REACTIVITY)

Keep the material out of reach of children.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTIVE EQUIPMENT

OCCUPATIONAL EXPOSURE LIMITS:	OSHA	ACGIH
Particles not otherwise specified	15 mg/m ³ (total dust)	10 mg/m ³ (inhalable)
	15 mg/m ³ (respirable)	3 mg/m ³ (respirable)
Crystalline Silica	0.05 mg/m ³ (respirable dust)	0.025 mg/m ³

EXPOSURE CONTROL METHODS:

Avoid contact with skin, eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling.

Remove contaminated clothing and wash before reuse.

Applicators and other handlers must wear:

Long pants and long-sleeved shirt

Socks and shoes

Chemical resistant gloves made of any waterproof material

PERSONAL PROTECTIVE EQUIPMENT (PPE):

HAND PROTECTION: Chemical resistant gloves made of any waterproof material (polyvinyl chloride, barrier laminate, and butyl, nitrile, neoprene, and natural rubber.)

EYE PROTECTION: Protective eyewear.

BODY PROTECTION: Coveralls and shoes plus socks.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other materials that have been heavily contaminated with this product. Do not reuse them.
