FIRE ANT & INSECT CONTROL

The Basics:

- This multi-use granular insecticide is ideal for long-lasting control of fire ants and other insects in and around telecom and utility equipment. FIRE ANT & INSECT CONTROL provides years of control in and around equipment such as pedestals, cross-connect boxes, CATV boxes, buried cable, pad-mounted electric transformers, substations and underground vaults.

- FIRE ANT & INSECT CONTROL is non-conductive and non-corrosive; making it safe for equipment and personnel. The new patented formula contains a waterproofing agent to prevent caking which keeps areas inside treated equipment “free breathing” or from retaining moisture.

- These 2 lb shaker containers with adjustable dispenser lids are an ideal choice for pretreating construction sites for pad-mounted equipment.

Applications:

Use FIRE ANT & INSECT CONTROL for long-lasting control of:

- Fire Ants
- Ants
- Black Widow Spiders
- Brown Recluse Spiders
- Crickets
- Fire Ants
- Fleas
- Millipedes
- Roaches
- Sowbugs
- Ticks
- Waterbugs
- Soil Infesting Insects
- Scorpions
