

PRODUCT:

MANHOLE WATER-TESTING KIT

Manhole
Water-Testing
Kit
45110

KIT INCLUDES:

- **#45101 Disposable Bailer** - The only 3' bailer that holds over 5 liters of water, making purging 4" wells faster and easier. This disposable water bailer is made to withstand rugged use. Material = Polyethylene. Outer Diameter = 3.5". Length = 3'. Single-Check Valve, Double-Weighted. Volume = 4.862 L. Pre-cleaned. Individually wrapped.
- **#45102 Natural Round Wide-Mouth Plastic Jar** - Unbreakable, lightweight. Wide mouth for easy filling. Corrosion-resistant HDPE. FDA compliant. White Polypropylene Cap included.
- **#45105 pH Test Strips** - Non-bleeding pH color strips. Simply immerse the strip in the test solution until color development is complete. Then compare the developed color to the sequence chart on the package, and read the pH. The range covered by each type of strip is divided into graduations as given below. Each package contains 100 strips in a clear, plastic container with a snug fitting top.
- **#45109 Field Log Book** - 9.75" x 7.5". 100 Sheets (200 Pages).
