

# POTHOLE FILLER

POTHOLE FILLER  
**4571**

RAINBOW

- With **EZ Street Cold Patch Asphalt**, hazardous potholes can be repaired as soon as they appear without the need for skilled laborers or special equipment. The product forms a permanent patch that can withstand heavy traffic and often outlasts the original pavement. This pothole filler forms a skid-resistant patch that will not pop out. **EZ Street Cold Patch Asphalt** is also great for quick repairs due to trenching and digging on asphalt surfaces.
- Because **EZ Street Cold Patch Asphalt** adheres to wet or dry surfaces, you can use it in any weather conditions - rain, slush, snow, dry weather, summer heat, or subfreezing temperatures.
- **EZ Street Cold Patch Asphalt** is easy to use - no mixing, heating, or priming. Just clear the pothole of debris and water, fill, and tamp. Normal traffic completes the compaction process.
- Special chemical formula ensures stored product freshness for six months from date of manufacture.

## APPLICATIONS:

Use **EZ Street Cold Patch Asphalt** for potholes and spalled concrete in many vehicular traffic routes including:

- Roadways
- Railroad crossings
- Parking lots
- Highways
- Airport runways

FEATURES	HOW YOU BENEFIT
Pothole filler is ready to use right out of the bag	No mixing, heating, or priming
Can be used in water and any weather	Repair potholes as soon as they appear to avoid costly large repairs
No special training or equipment necessary	Save time and money
Formulated for long life	Product retains freshness even when stored

**TECHNICAL HIGHLIGHTS:**

**EZ Street Cold Patch Asphalt** is a high-performance, polymer-modified asphalt pothole filler formulated with finely graded aggregates for maximum adhesive and cohesive strength. Chemical action ensures stored product freshness for 6 months from date of manufacture.
