

**PRODUCT:**

**WATER-BASED**

# Communications Orange Marking Paint

**THE BASICS:**

Excellent for use in marking construction areas, excavation sites, traffic safety, athletic sites, survey crews, utility line, buried cables, and much more. May be used on asphalt, concrete, gravel, dirt, and grass. Unique upside-down spray system for application versatility. High solids formula produces a highly visible coating. Lead-free, VOC compliant formula. Coating lasts approximately 30-90 days, depending on environmental conditions.

- MARKING PAINT contain high solids formulation for bold, bright, visible marking thus reducing cut cables, service interruptions, and power outages.
- Highly pigmented industrial solids have been filtered through exclusive 50 micron filters for non-clogging, trouble-free spraying. One-coat coverage and our spray-through cap allow for inverted painting ease.
- Fast drying, high-solids formula penetrates and adheres to hot surfaces such as concrete, brick, pavement, and asphalt.
- Convenient spray-through cap and non-clogging tip.
- VOC compliant, lead-free, and biodegradable.
- Both APWA and fluorescent colors are available in water- and solvent-based formulations.

*Available in all APWA colors - please inquire.*

FEATURES	HOW YOU BENEFIT
Paint filtered through exclusive 50 micron filter	Non-clogging, trouble-free spraying
Fast-Drying, penetrates and adheres to hot surfaces	Long-lasting
VOC compliant - lead-free	Safe for the environment and employees, biodegradable
