U.S. MATERIAL SAFETY DATA SHEET
D’Gel Cable Gel Solvent

Section 1 • Product and Company Identification

Manufacturer's Name: PT Technologies
Trade Name: PT D’Gel
Address:
4647 Hugh Howell Road
Tucker, GA  USA 30085-5052

Chemical Family: Hydrocarbons
Telephone Number: 770-243-8810
Emergency Telephone Numbers:
1-800-424-9300 Chemtrec;
Outside U.S.: (703) 527-3887

Packaging / part numbers:
Individual wipe towels, 61244
12 field splice kit 61202
32 fl. oz. bottle (.948 liters) 61232
One 3 quart sealed poly bag in a pail 61296
1 gal. (3.78 liters) 61201
55 gal. poly drum (208 liters) 61255

PLAIN LANGUAGE HAZARD SUMMARY

Material Safety Data Sheets can be confusing. Federal and State laws require us to include a great deal of technical information that probably won’t help the non-professional. LPS includes this "PLAIN LANGUAGE HAZARD SUMMARY" to address the questions and concerns of the average worker. If you have additional health, safety or product questions, don’t hesitate to call us at 800/241-8334.

Worker Toxicity

PT D’GEL CABLE GEL SOLVENT is designed to remove grime, "icky-pick," and other contaminants from electrical and telecommunications cables during splicing operations. It contains d-limonene and paraffinic hydrocarbons that can be irritating to skin. We suggest you wear gloves and avoid extended exposure to unprotected skin. Don’t get it in your eyes (it stings), or breath large amounts of the vapor, (it will dry out your nasal passages and if you breathe large amounts in poorly ventilated areas it can make you dizzy and even sick). Don’t atomize PT D’GEL CABLE GEL SOLVENT for extended periods without adequate ventilation. If you’re going to perform work involving a lot of product in a poorly ventilated area, use of a respirator or even a self-contained breathing apparatus may be necessary. For more exposure and first aid information, refer to MSDS Sections 2, 8 and 11.

Flammability

PT D’GEL CABLE GEL SOLVENT generates a “flame extension” when atomized into an ignition source (flame, arc, etc.), but in having a flash point above 141°F, it is generally safe to use for most industrial applications. Store product away from heat sources and do not spray into live electrical equipment.

Disposal

If you spill PT D’GEL CABLE GEL SOLVENT, notify the proper environmental or safety department at your company right away. If PT D’GEL CABLE GEL SOLVENT becomes contaminated with another substance and is rendered unusable for cleaning, the resulting mixture may fall under at least one hazardous classification.
Section 2 • Hazards Identification

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Emergency Overview: CAUTION: Combustible liquid and vapor. May cause skin irritation. May cause sensitization by skin contact. May cause lung damage if swallowed.

Primary route(s) of entry: Skin and Eye contact. Inhalation.

Potential Acute Health Effects:

- **Eyes**: Irritating to eyes
- **Skin**: Repeated exposure may cause skin dryness or cracking.
- **Inhalation**: Excessive inhalation of vapors can cause irritation of the respiratory tract, nausea, dizziness or headache.
- **Ingestion**: Product has a low order of acute oral toxicity, but ingestion of large quantities may cause nausea, vomiting, and gastrointestinal irritation. May cause injury if aspirated into lungs.

Potential Chronic Health Effects:

- **Carcinogenic Effects**: NTP: No IARC: No OSHA: No
- **Mutagenic Effects**: None
- **Teratogenic Effects**: None
- **Medical conditions aggravated by exposure**: Persons with pre-existing central nervous system (CNS) disease, neurological conditions, skin disorders, chronic respiratory diseases, or impaired liver or kidney function should avoid exposure.

Signs and Symptoms

Stinging in eyes. Repeated or prolonged skin contact can cause redness, irritation, and scaling of the skin (dermatitis). Breathing of high vapor concentrations may cause headaches, stupor, irritation of throat and eyes, and kidney effects. Swallowing may cause vomiting which in turn can lead to aspiration into lungs.

Section 3 • Composition / Information on Ingredients

<td>5989-27-5</td>
<td>10 - 20%</td>
</tr>
</tbody>
</table>

Section 4 • First Aid Measures

**Eyes:** Check for and remove contact lenses. If irritation or redness develops, flush eyes with cool, clean, low pressure water for at least 15 minutes. Hold eyelids apart to ensure complete irrigation of the eye and eyelid tissue. Do not use eye ointment. Seek medical attention immediately.

**Skin:** Remove contaminated shoes and clothing. Clean affected area thoroughly with mild soap and water. Do not use ointments. Seek medical attention if irritation persists.

</tbody>
</table>

Potential Chronic Health Effects:

Carcinogenic Effects: NTP: No IARC: No OSHA: No

Mutagenic Effects: None

Teratogenic Effects: None

Medical conditions aggravated by exposure: Persons with pre-existing central nervous system (CNS) disease, neurological conditions, skin disorders, chronic respiratory diseases, or impaired liver or kidney function should avoid exposure.

Signs and Symptoms

Slighting in eyes. Repeated or prolonged skin contact can cause redness, irritation, and scaling of the skin (dermatitis). Breathing of high vapor concentrations may cause headaches, stinor, irritation of throat and eyes, and kidney effects. Swallowing may cause vomiting which in turn can lead to aspiration into lungs.

**U.S. MATERIAL SAFETY DATA SHEET**

**D’Gel Cable Gel Solvent**

**Engineering Controls:** Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits.

**Personal Protection:**

- **Eyes:** Safety glasses.
- **Respiratory:** Use organic vapor cartridge type respirator if ventilation is inadequate.
- **Hands:** Use nitrile gloves.

**General Hygiene Considerations:** Wash thoroughly after handling. Have eye-wash facilities immediately available.

### Section 10 • Stability and Reactivity

- **Stability and Reactivity:** The product is stable.
- **Incompatibility with Various Substances:** Extremely reactive or incompatible with oxidizing agents.
- **Hazardous decomposition products:** These products are carbon oxides (CO, CO2)
- **Hazardous polymerization:** Will not occur.

---

### Section 11 • Toxicological Information

**Acute and Chronic Toxicity**

- **A: General Product Information**

  Following exposure to vapors, this material can produce central nervous system depression. High atmospheric concentrations can result in eye, nasal and respiratory tract irritation. However, if handled in accordance with good industrial hygiene practice, this product will not present a significant hazard in the workplace.

Section 13 • Disposal Considerations

Waste Status: In its purchased form, this product is not classified as hazardous waste.

Disposal: Waste must be disposed of in accordance with federal, state and local environmental control regulations.

Note: Chemical additions to, processing of, or otherwise altering this material may make this waste management information inaccurate, incomplete, or otherwise inappropriate. Furthermore, state and local waste disposal requirements may be more restrictive than federal laws and regulations.

Section 14 • Transport Information

This product is not regulated by any mode of transportation.

Section 15 • Regulatory Information

U.S. Federal Regulations:

TSCA 8(b) inventory: All of the ingredients are listed on the TSCA inventory or are exempt.

RCRA Hazardous Waste No.: none.

CERCLA Sections 102a/103 Hazardous Substances (40 CFR part 370) Reportable Quantity: none

SARA TITLE III Section 313: No
Safety Data Sheet (SDS)

U.S. MATERIAL SAFETY DATA SHEET

D’Gel Cable Gel Solvent

Hazardous Air Pollutants (U.S. EPA): None

California Proposition 65: None.

California and OTC States: This product is not regulated as a consumer item.
