

PRODUCT:

# Ever-Last Corrosion Protection Coating

Ever-Last Corrosion  
Protection Coating  
**77206**

THE BASICS:

Spray-on textured black durable coating seals out water, preventing corrosion, rot and other effects of moisture.

FEATURES:

- Can be applied direct to metal or wood surfaces to seal out moisture
- Use as a below-ground coating on steel, metal or wooden utility poles
- Ideal for anchors, guy rods, and other equipment that contacts soil and moisture
- Also use on truck beds, wheel wells, metal steps, side bars, or anywhere a rubber coating is needed to seal out moisture
