

Torque Seal  
**79385**

**PRODUCT:**

# TORQUE SEAL

**THE BASICS:**

Torque Seal® is an inexpensive method to detect warranty tampering and vibration loosening. This product is used during production on compression fittings, studs, nuts, parts and assemblies after they are in proper torque or position. Widely used as "Anti-Sabotage Lacquer," Torque Seal® allows an inspector to visually detect any movement or tampering. It provides excellent adhesion to all metals and to most other surfaces and dries quickly. Torque Seal® is packaged in 4 oz poly squeeze tubes. Torque Seal® is available in high visibility, daylight fluorescing colors of yellow and orange. Other colors are available.

Product #	Container	UOM	Units/ Case	Case Weight	Case Size (LxWxH)
79385	4 oz Tube (Orange)	Each	100/Box	30 lbs	N/A
