SECTION 1: IDENTIFICATION

MANUFACTURER/DISTRIBUTOR: Rainbow Technology Corporation (800) 637-6047
CONTACT PERSON: Larry Joe Steeley, Jr.
EMERGENCY PHONE #(24 HOUR): Chem-Tel Inc. (800) 255-3924
TRADE NAME: Silicone Spray Lubricant
PRODUCT NUMBER: 85000
CHEMICAL NAME: Proprietary
CHEMICAL FAMILY: Mixed Solvents
FORMULA: Proprietary

Date of Preparation: 5/23/2019
Replaces SDS dated: 10/8/2015

SECTION 2: HAZARD IDENTIFICATION

EMERGENCY OVERVIEW:
DANGER: EXTREMELY FLAMMABLE AEROSOL. PRESSURIZED CONTAINER MAY BURST IF HEATED. VAPOR HARMFUL. HARMFUL OR FATAL IF SWALLOWED. EYE AND SKIN IRRITANT.

Major Route(s) of Entry: ASPIRATION HAZARD. EYES. LUNGS. SKIN.

Signal Word
Danger

Hazard Statements
Causes skin and eye irritation.
May be fatal if swallowed and enters airways.
May cause drowsiness and dizziness.
Extremely flammable aerosol.

Precautionary Statements - Prevention
Obtain special instructions before use
Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required.
Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product.
Use only outdoors or in a well-ventilated area.
Wear eye/face protection.
Do not breathe dust/fume/gas/mist/vapors/spray.
Keep away from heat/sparks/open flames/hot surfaces. — No smoking. Do not spray on an open flame or other ignition source.
Pressurized container: Do not pierce or burn, even after use.
SECTION 2: HAZARD IDENTIFICATION (CONTINUED)

Precautionary Statements - Storage
Store locked up
Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

SECTION 4: FIRST AID MEASURES

Take proper precautions to ensure your own health and safety before attempting rescue or providing first aid. For more specific information, refer to Exposure Controls and Personal Protection in Section 8 of this MSDS.

Precautionary Statements - Response
If exposed or concerned: Get medical advice/attention
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing if eye irritation persists: Get medical advice/attention
IF ON SKIN: Wash with plenty of soap and water
If skin irritation occurs: Get medical advice/attention Take off contaminated clothing and wash it before reuse
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Call a poison center or doctor/physician if you feel unwell
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician Do not induce vomiting
Rinse mouth

SECTION 5: FIRE FIGHTING MEASURES

NFPA Flammability Classification: LEVEL 3 Aerosol
FLASH POINT: Not Determined FLAMMABLE LIMITS: UEL 9.5 % LEL 1 %
EXTINGUISHING MEDIUM: AS APPROPRIATE FOR COMBUSTIBLES IN AREA.
SPECIAL FIREFIGHTING PROCEDURES: Wear self-contained breathing apparatus when fighting fires containing or around this product. Shut off all sources of ignition, if possible. Do not use water jet. Keep exposed containers cool with water spray to prevent rupture. Evacuate all non-trained personnel. Wear full protective clothing, including helmet. Ventilate area. Contain spill and dike, if possible. For leaks or spills water spray can be used to disperse any flammable vapors that may become concentrated or form in poorly ventilated areas and to protect personnel attempting to stop the leak.
UNUSUAL FIRE AND EXPLOSION HAZARDS: Firefighters should wear SCBA's in a positive pressure mode with full face shield. Vapors are heavier than air and may travel long distances and accumulate in low areas or spread along ground from handling site. Eliminate all sources of ignition. Never use welding or cutting torch on or near this product because even just residue can ignite explosively.
SECTION 6: ACCIDENTAL RELEASE MEASURES

Take proper precautions to ensure your own health and safety before attempting spill control or clean-up.

Ventilatate area—especially low places where heavy vapors might collect. Extinguish all ignition sources. For small spills/leaks mop, wipe, or soak up on an inorganic material immediately. Remove to vent hood or outside. For large spills/leaks evacuate area, contain spill (dike area), and transfer contained liquid to a DOT approved container for disposal. Keep out of water supply. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personnel protective equipment.

SECTION 7: HANDLING AND STORAGE

Store in tightly sealed containers. Keep away from heat, sparks & open flame. Do not get in eyes, on skin or clothing. Do not breathe vapor, mist or gas. Do not store or transfer to an unmarked container. Do not throw empty containers in trash compactor. Do not store in direct sun. Store containers below 120°F. Read label before using.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS: Control airborne concentrations below the exposure limits see below. Use only with adequate ventilation. Local exhaust ventilation may be necessary for some operations. Lethal concentrations may exist in areas with poor ventilation.

PERSONAL PROTECTIVE EQUIPMENT: Personal protective equipment should be selected based upon the conditions under which this material is used. A hazard assessment of the work area for PPE requirements should be conducted by a qualified professional pursuant to OSHA regulations. Minimum requirements are: SAFETY GLASSES and GLOVES.

RESPIRATORY PROTECTION (SPECIFY TYPE): If workplace exposure limit(s) of product or any component is exceeded (see Section two), a NIOSH approved air supplied respirator is advised in absence of proper environmental control. OSHA regulations also permit other NIOSH respirators (negative pressure type) under specified conditions (see your safety equipment supplier). Engineering or administrative controls should be implemented to reduce exposure.

HAND PROTECTION: For brief contact, no precautions should be needed. When prolonged or frequently repeated contact could occur, use protective gloves such as; polyvinyl alcohol or polyethylene.

EYE PROTECTION: Chemical splash goggles in compliance with OSHA regulations are advised; OSHA regulations also permit other type of safety glasses (consult your safety equipment supplier).

BODY PROTECTION: To prevent repeated or prolonged skin contact, use protective clothing impervious to this product. Selection of specific items such as gloves, boots, apron, or full body suit will depend on operation.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

PHYSICAL STATE: Aerosol COLOR: Clear ODOR: Mild
SPECIFIC GRAVITY: 0.70-0.80 (Water =1) pH: N/A VAPOR DENSITY (Air =1): Heavier Than
VAPOR PRESSURE (mmHg or psig @70°F): 50-70 psig VISCOSITY (cps @ 70°F) N/D
SOLUBILITY IN WATER % BY WT.: Insoluble MELTING POINT /FREEZING POINT: N/D
VOLATILE ORGANIC COMPOUNDS (VOCs) Content: 94 % BOILING POINT RANGE: N/D
SECTION 10: STABILITY AND REACTIVITY

STABILITY: Stable, avoid open flames, welding arcs or other high temperature sources which induce thermal decomposition and direct sunlight.
INCOMPATIBILITY: Avoid contact with strong acids, strong bases, and strong oxidizers.
HAZARDOUS DECOMPOSITION PRODUCTS: Carbon dioxide, carbon monoxide, silicon oxides, formaldehyde,
HAZARDOUS POLYMERIZATION: Will not occur

SECTION 11: TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information

Eye Contact
Mild eye irritation.

Skin Contact
Causes skin irritation. Harmful if prolonged contact with skin occurs.

Inhalation
Harmful if inhaled.

Ingestion
Harmful if swallowed.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Carcinogenicity
Not classifiable as a human carcinogen

Reproductive toxicity
No information.

Aspiration hazard
May be fatal if swallowed and enters airways.

SECTION 12: ECOLOGICAL INFORMATION

No ecological studies have been conducted on this product.
Petroleum distillates, hydrotreated light Chronic NOEL 0.48 mg/l Daphnia 21 days.

ECOTOXICITY: If spilled this any water or soil contaminated may be hazardous to human, animal and aquatic life.

ENVIRONMENTAL FATE: The chemicals in this product are potentially toxic to freshwater and salt water ecosystems. They will normally float on water with their lighter components evaporating rapidly. In stagnant or slow-flowing waterways, a hydrocarbon layer can cover a large surface area. As a result this layer might limit or eliminate natural atmospheric oxygen transport into the water. Which with time could lead to a fish kill or an anaerobic environment.

SECTION 13: DISPOSAL CONSIDERATIONS

Hazard characteristics and regulatory waste stream classification can change with product use. It is the responsibility of the user to determine the proper storage, transportation, treatment and/or disposal methodologies for spent materials and residues at the time of disposition.

When disposing of unused contents, the preferred options are to send to licensed reclaimers or to permitted incinerators. Any disposal practice must be in compliance with federal, state, and local laws and regulations. Do not dump into sewers, on the ground, or into any body of water.

EPA Hazardous Waste Number (RCRA): D001 (Ignitable)
**SECTION 14: TRANSPORT INFORMATION**

DOT STATUS: This material is regulated by the U.S. Department of Transportation (DOT).

PROPER SHIPPING NAME: (to ship on the ocean):
UN1950, AEROSOLS, FLAMMABLE (each not exceeding 1L capacity), 2.1, LTD. QTY

HAZARD CLASS: 2.1
PACKING GROUPS: None for aerosols
PLACARDS: None Required
EMERGENCY RESPONSE GUIDE NO: 126

**SECTION 15: REGULATORY INFORMATION**

311/312 HAZARD CATEGORIES:
Fire Hazard: YES  Pressure Hazard: YES  Reactivity Hazard: NO  Immediate Hazard: YES  Delayed Hazard: NO

SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT OF 1986 (SARA) TITLE III:
CHEMICAL           CAS NUMBER    CONCENTRATION %
None Listed.

FEDERAL EPA: Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) requires the notification of the National Response Center of release of quantities of hazardous substances equal to or greater than the reportable quantities (rq's) in 40 CFR 302.4.

CHEMICAL           CAS NUMBER    CONCENTRATION % UPPER BOUND RQs IN #
None Listed.

CALIFORNIA PROPOSITION 65: WARNING: This product can expose you to chemicals including, Benzene, which is known to the State of California to cause developmental toxicity and cancer. For more information, go to www.P65Warnings.ca.gov.
